TopLine

THE COLLECTIONS

Since 1986, TOP LINE has been creating chairs and armchairs that combine contemporary design, advanced technology and meticulous attention to detail.
Our collections are defined by essential, refined shapes and are designed for a wide range of environments, from retail and hospitality to residential spaces.
Design and functionality come together through high-quality materials, carefully engineered padding and expert craftsmanship.
Every detail, from upholstery to stitching, is meticulously controlled by our team and developed in close collaboration with the skilled craftsmen of Italy's renowned Chair District.
The result is a distinctive balance of design, comfort and Made in Italy quality.
